

01 / Meet WhisPURR – Onboarding Welcome

COMPONENT: Tutorial.tsx (Slide 0) • AESTHETIC: Multi-Color Ambient Mesh Aura

AURA SYSTEM

AMBIENT LIGHT MESH

Luminous blur mesh composed of sky blue, coral, sunshine yellow, and mint ambient orbs that establish visual energy from the moment the app opens.

GRADIENT TYPOGRAPHY

Hero headline clipped from bright sky blue into indigo, balanced against deep coffee brown typography for optimal reading contrast.

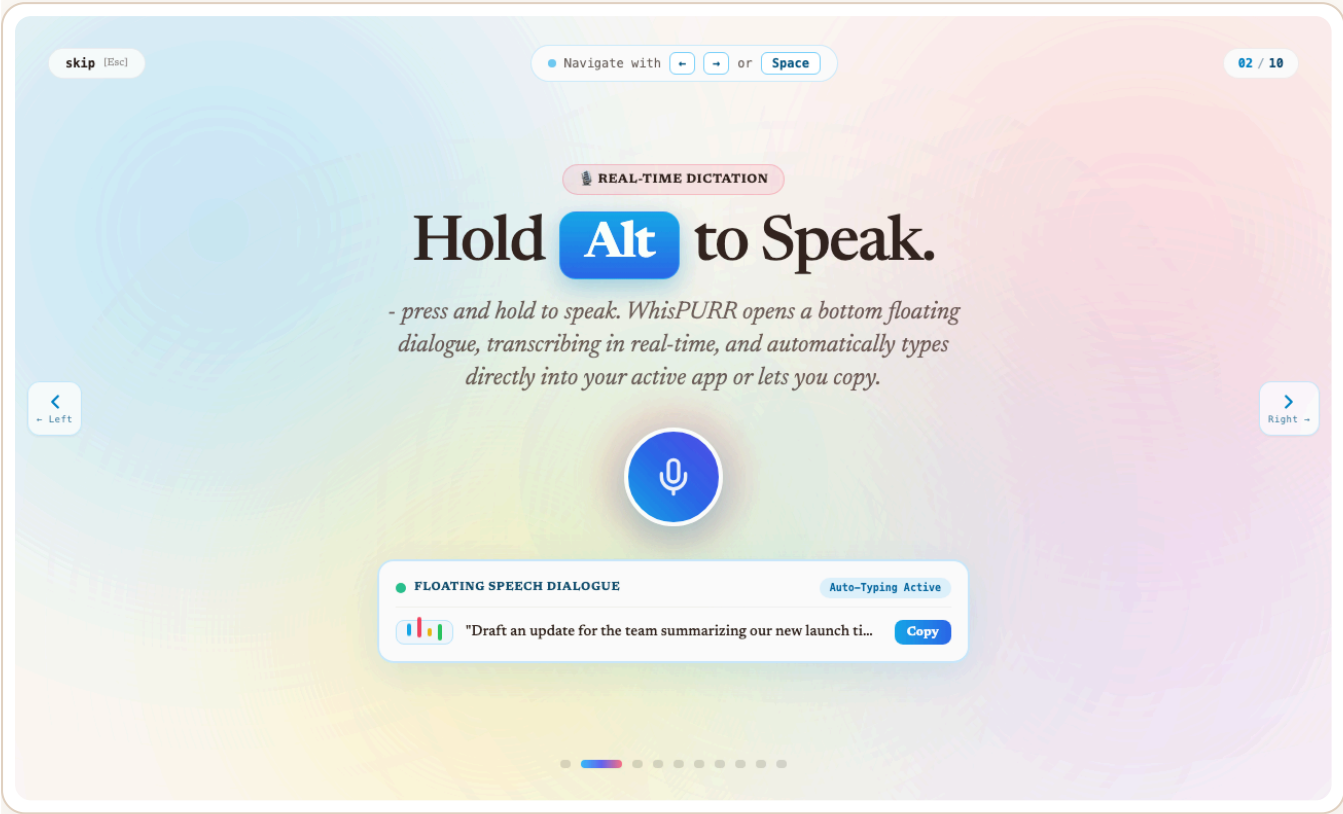

TACTILE PILL INDICATORS

Highlighting core tenets: ⚡ Fast, 🧑 Flexible, 🐦 Quietly There, and ✨ Emotion Moods with dedicated semantic color treatments.

02 / Hold to Speak Dictation HUD

COMPONENT: Tutorial.tsx (Slide 1) • INTERACTION: Global Alt Key Hook

VOICE HUD

3D ALT KEYCAP

Tactile blue keycap with glossy top reflection and shadow rendering, providing intuitive muscle-memory guidance for dictation invocation.

PULSING MIC ORB

Radiant microphone button enveloped by concentric ripple animations to signal active microphone listening state.

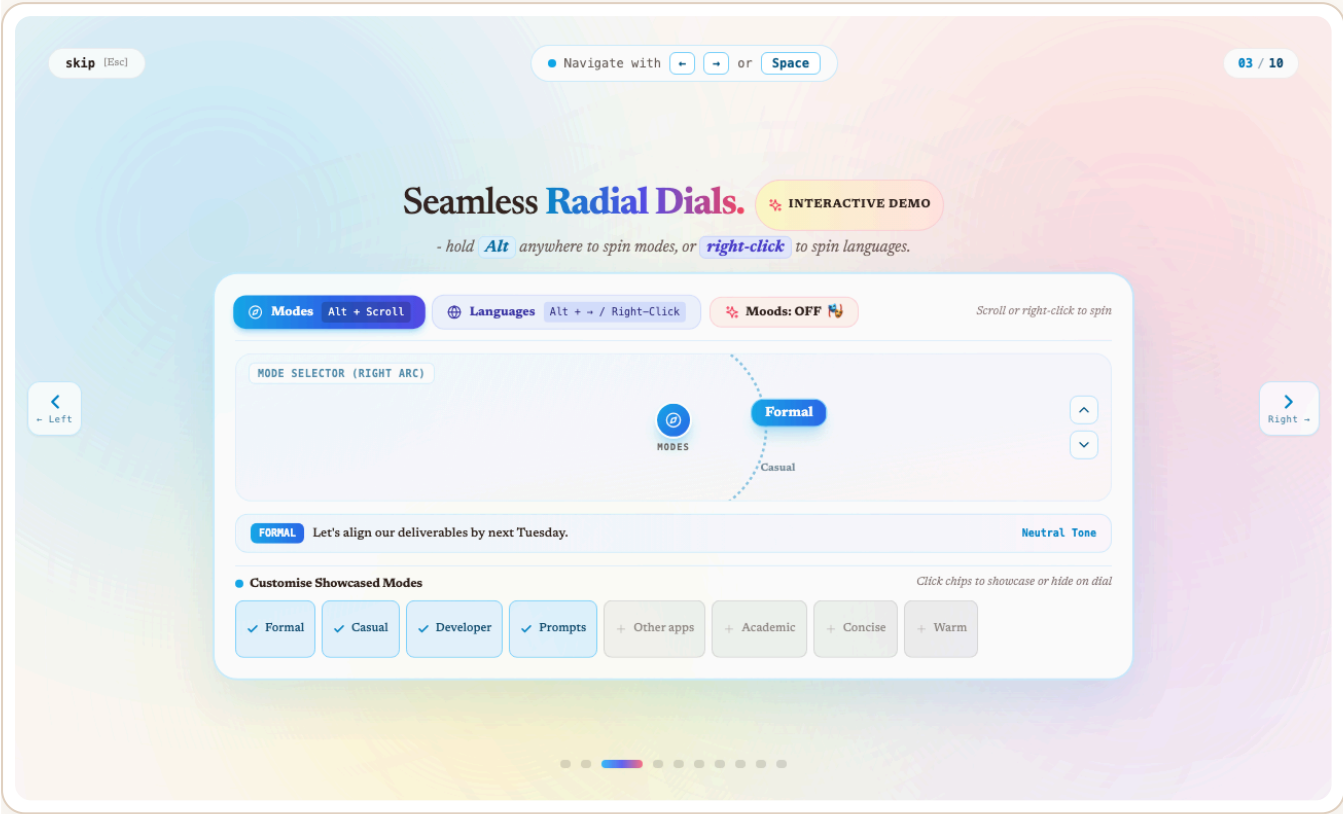

FLOATING SPEECH DIALOGUE

Simulated bottom-docked speech HUD displaying real-time animated bouncing audio waveforms, live text preview, and quick-copy action.

03 / Seamless Radial Dials – Tone Mode Selector

COMPONENT: Tutorial.tsx (Slide 2 - Modes) • INTERACTION: Alt + Mouse Wheel

RADIAL DIALS

LIVE SIMULATOR

Interactive radial arc allowing users to practice mouse wheel spinning through 8 tone profiles right inside the onboarding flow.

MOODS SWITCH

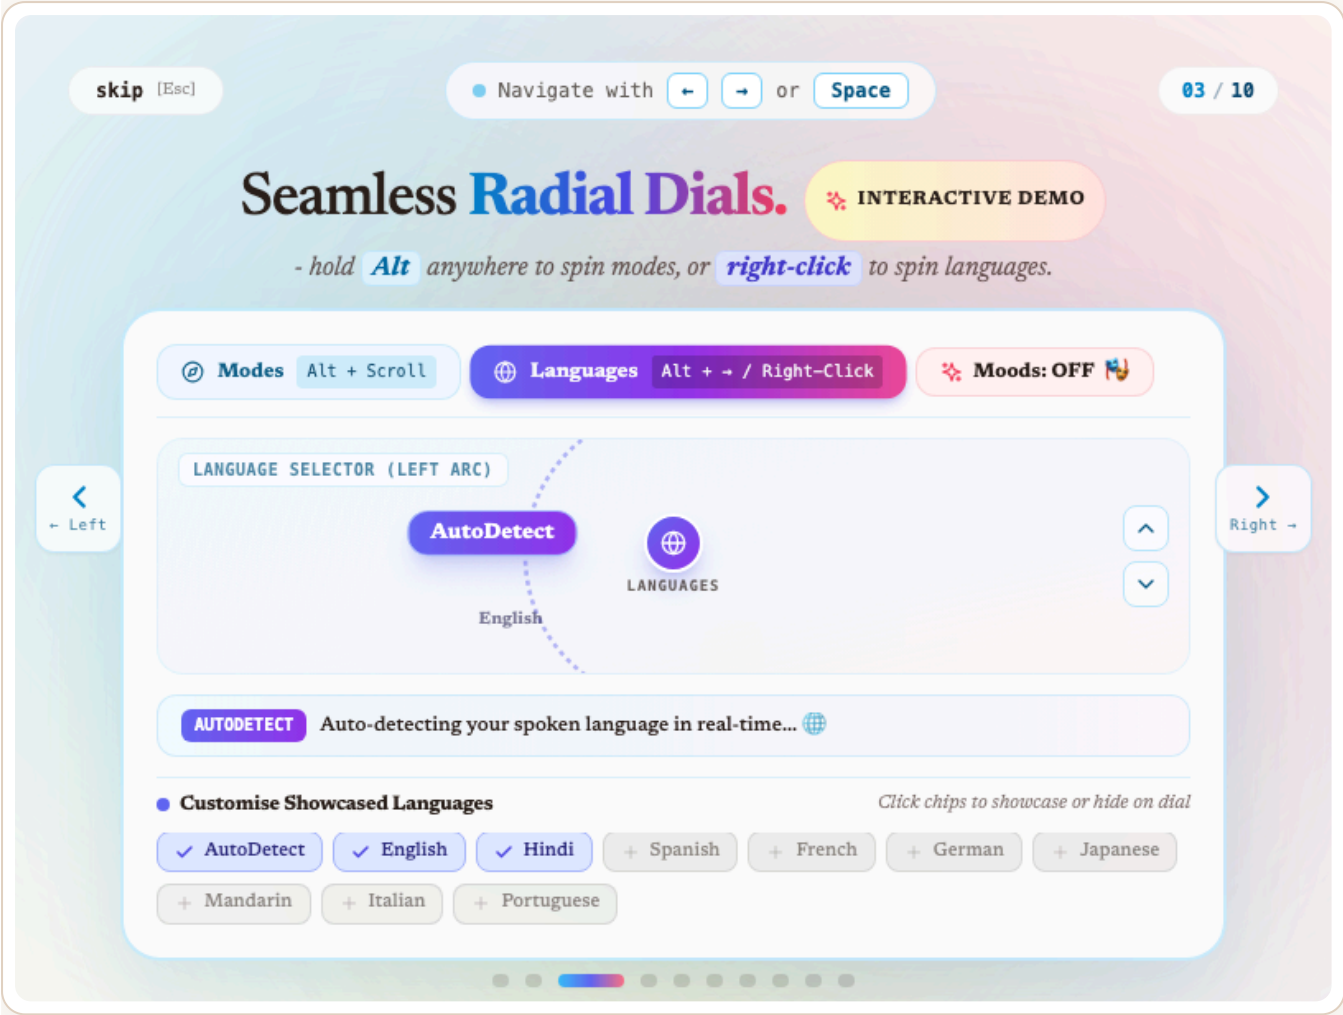

Coral-accented toggle switch enabling/disabling emotional emoji injection and undertone intelligence on the fly.

CHIP CUSTOMIZATION

Dynamic chip selector allowing users to pin or unpin specific tone profiles to customize their live radial carousel.

04 / Seamless Radial Dials – Language Selector

COMPONENT: Tutorial.tsx (Slide 2 - Languages) • INTERACTION: Alt + Right-Click / Alt + →

LEFT ARC ORIENTATION

Flipping to the Languages dial maps items along the left radial curve with distinct indigo/purple visual branding.

10 SUPPORTED LANGUAGES

Real-time translation across English, Hindi, Spanish, French, German, Japanese, Mandarin, Italian, Portuguese, and Auto-Detect.

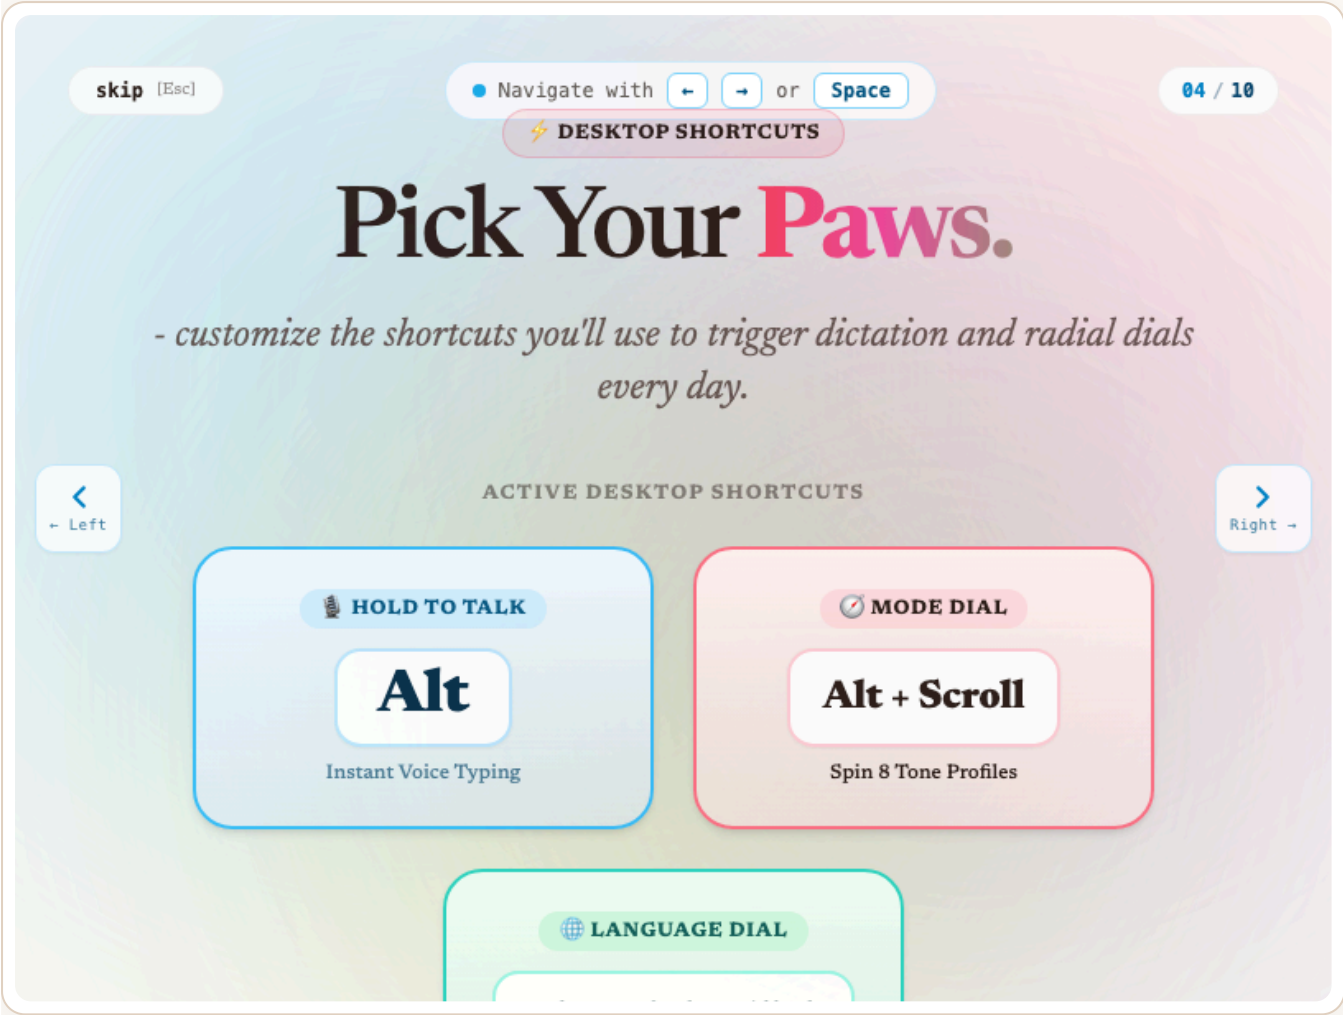

REAL-TIME OUTPUT STRIP

Live translated sample preview dynamically demonstrates multilingual speech outputs as the wheel is spun.

05 / Pick Your Paws – Shortcuts Architecture

COMPONENT: Tutorial.tsx (Slide 3) • ARCHITECTURE: Three-Tier Control Model

SHORTCUTS

SKY BLUE: HOLD TO TALK

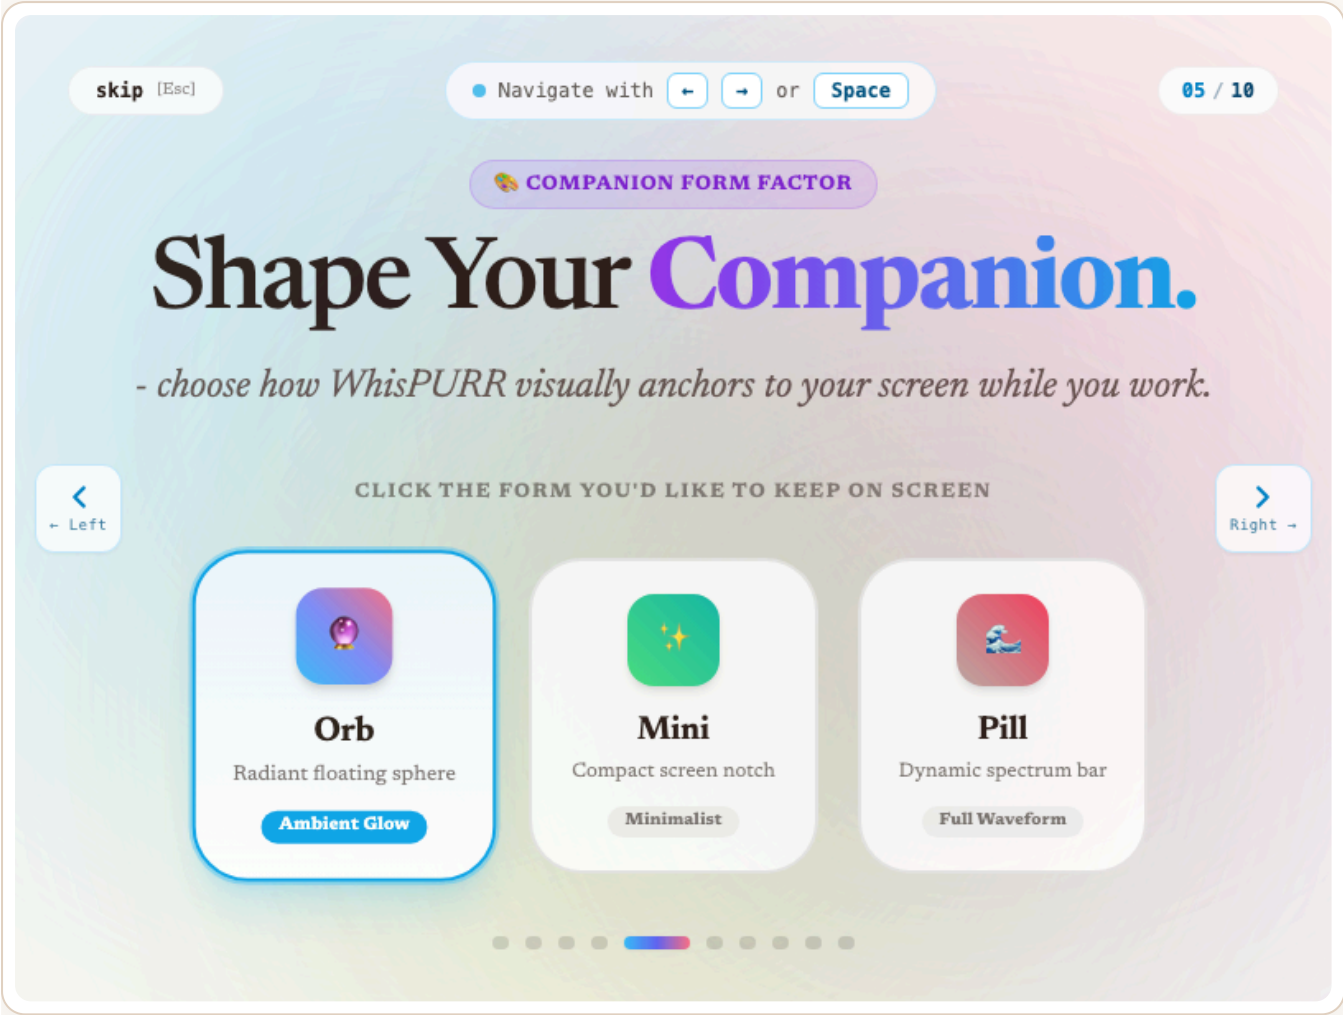

Instant voice typing trigger with dedicated Alt keycap display, reinforcing core dictation behavior.

CORAL: MODE DIAL

Alt + Scroll mapping for immediate spinning across 8 contextual tone profiles without opening an app window.

MINT: LANGUAGE DIAL

Alt + Right-Click mapping providing zero-latency switching between 10 world languages.

THE ORB (DEFAULT)

Radiant floating sphere with ambient multi-color glow, providing a warm, playful desktop mascot presence.

THE MINI

Ultra-compact minimalist screen notch designed for users who want zero screen footprint while working.

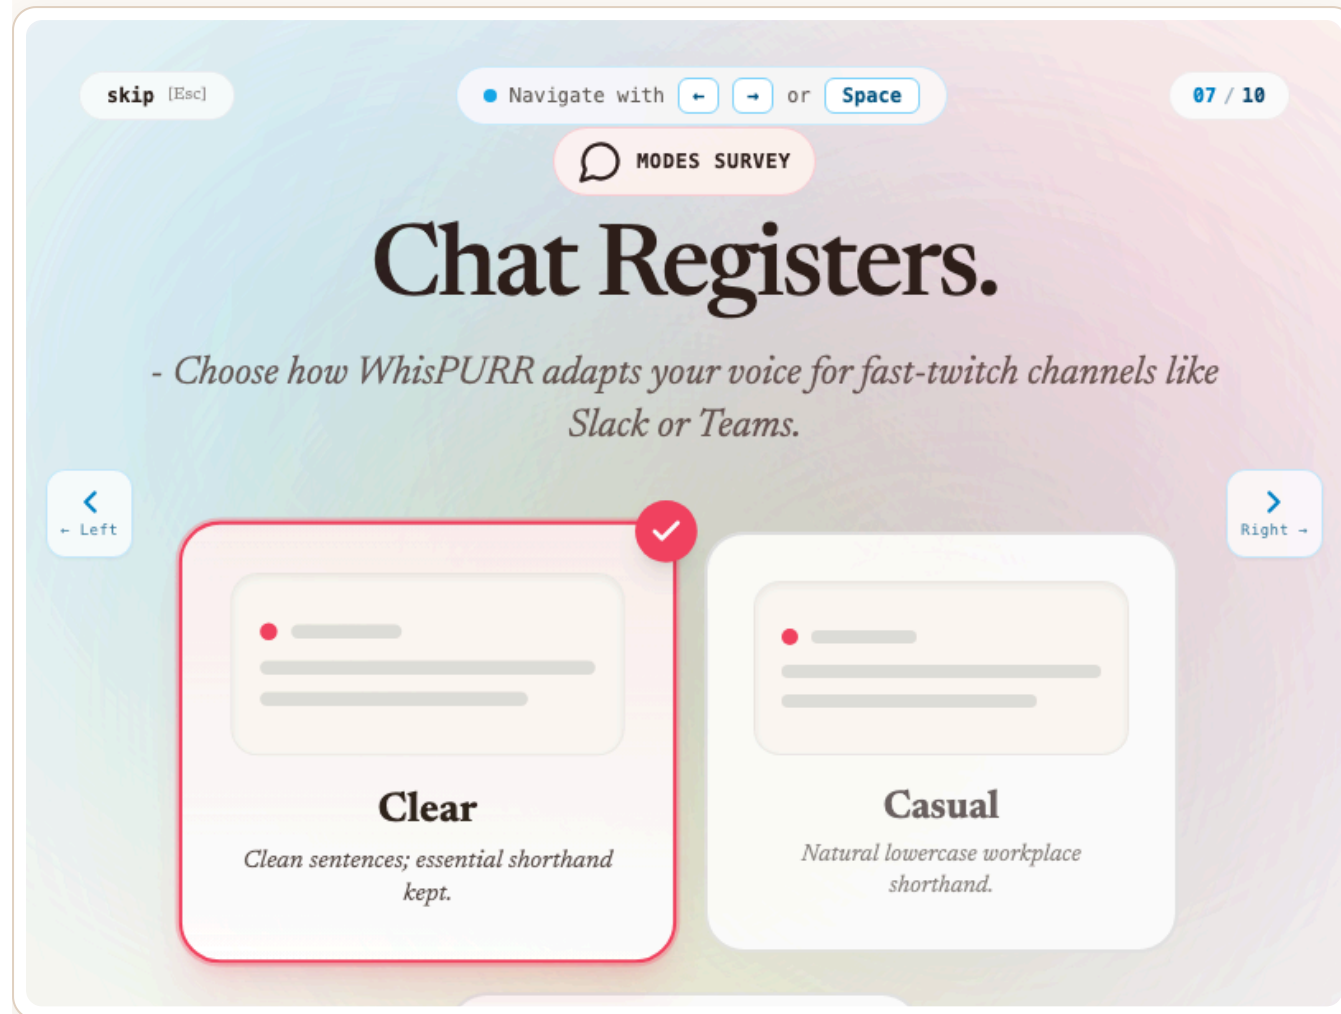

THE PILL

Dynamic spectrum bar displaying real-time audio waveform activity and status indicators across the display bottom.

07 / Category Personality Surveys

COMPONENT: Tutorial.tsx (Slides 5-8) • ADAPTATION: Domain Tone Presets

ONBOARDING SURVEY

CHAT REGISTERS (CORAL)

Customizing how WhisPURR adapts speech for fast-twitch workplace channels like Slack, Teams, and Discord (Clear vs. Casual).

DEVELOPER BLUEPRINTS (SKY)

Choosing code comment verbosity, terminal command structuring, and technical prompt syntax.

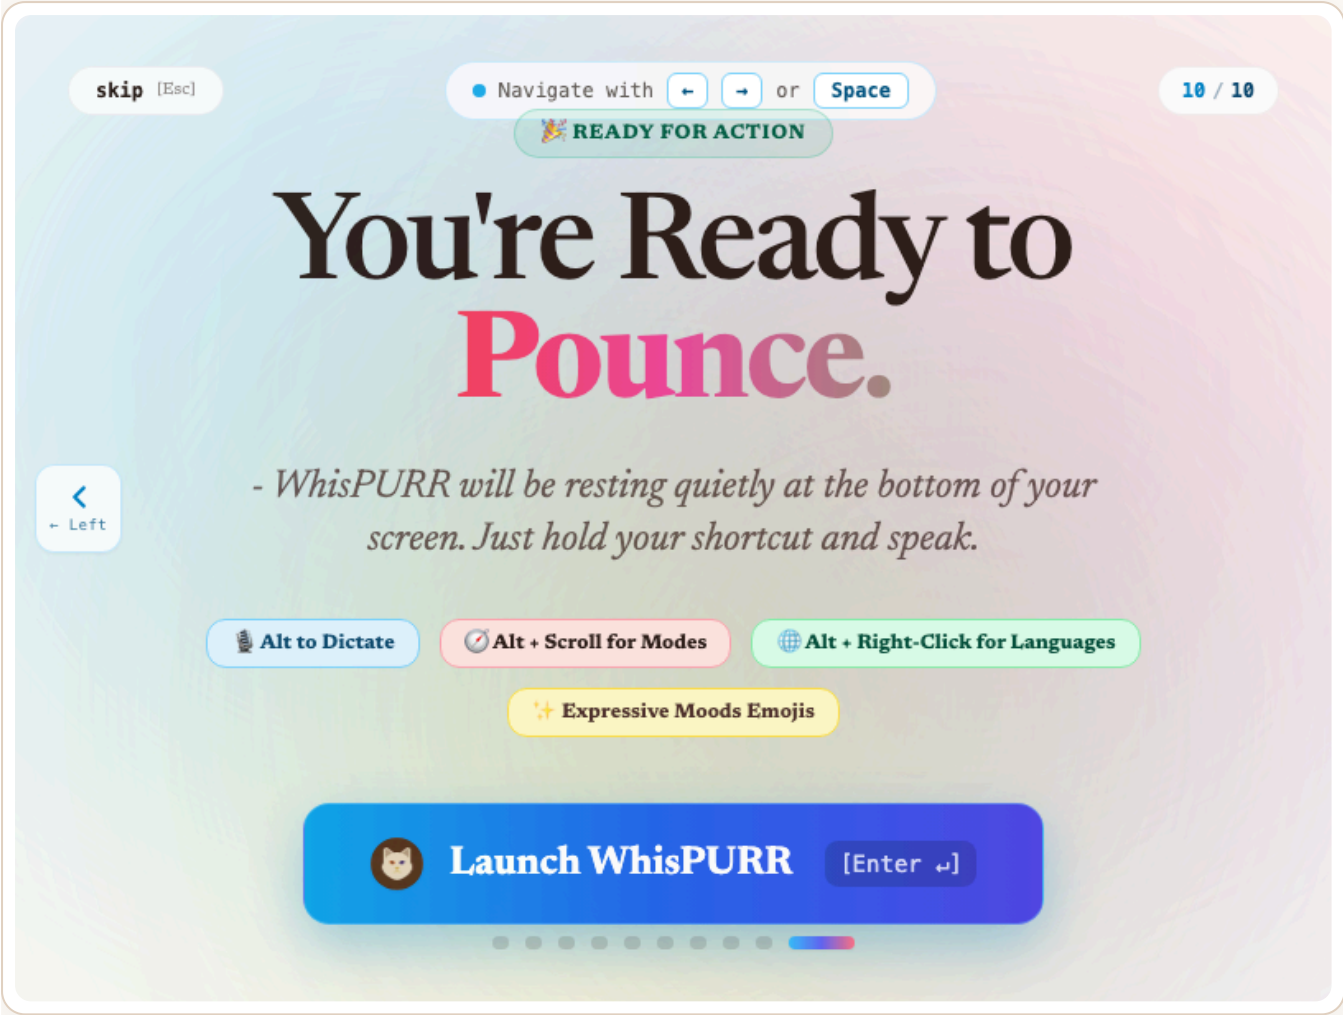

INTERACTIVE CARDS

Selection rings, glowing checkmark pills, and live text preview cards that instantly react to user choices.

08 / Ready to Pounce & Time Saved Milestones

COMPONENTS: Tutorial.tsx (Slide 9) & WhispurrApp.tsx (Time Saved UI)

FINAL EXPERIENCE

LAUNCH WHISPURR CTA

Radiant sky-to-indigo launch button with the WhisPURR cat avatar and keyboard shortcut [Enter ↵] trigger.

SHORTCUT REMINDER PILLS

Color-coded reminder badges for dictation, modes dial, language dial, and expressive emotion moods.

DYNAMIC TIME SAVED

Real-time metrics translating saved minutes into human activities (e.g. coffee break, reading a chapter, watching a movie, half a workday back).
